**JAWS** is an assistive technology software program that provides a comprehensive screen reading system appropriate for individuals who are totally blind when using Windows application programs. Text, title bars, menus and dialog boxes are spoken to you as you do your work.

System requirements include:

- Microsoft Windows 95, 98 or NT Workstation 4.0 or later.
- Windows 95 or Windows NT compatible sound card.
- 30MB of available hard disk space required
- As with most systems, the faster the processor and the more memory your computer has the better the performance of your computer the product.

Below is a list of basic keyboard commands that can be used with Jaws.

<b>Insert</b> + <b>8</b>	(on numeric keypad)	<b>Reads the current line</b>
<b>Insert</b> + <b>5</b>	(on numeric keypad)	<b>Reads the current word</b>
<b>Insert</b> + <b>5</b> <b>5</b>	(on numeric keypad)	<b>Spells the current word</b>
<b>Insert</b> + <b>2</b>	(on numeric keypad)	<b>Reads from cursor to end</b>
<b>Insert</b> + <b>T</b>		<b>Reads the title bar</b>
<b>Insert</b> + <b>B</b>		<b>Reads the dialog box in TAB order</b>
