Macintosh Screen Magnification: Closeview

If you don't own a Mac OS 8.5 CD, you can download CloseView from the following web site:

<http://www.apple.com/education/k12/disability/universal.html>

- To install CloseView directly from the Mac OS 8.5 Install CD:
- Place your Mac OS 8.5 CD into your CD drive.
- Double click the CD Extras folder icon.
- Double click the Universal Access folder icon.
- Drag the CloseView icon on top of your system folder to install, then restart your computer.

Once CloseView is installed, use the following keyboard commands:

Turn CloseView On/Off	Option Command O
Turn Magnification On/Off	Option Command X
Increase Magnification	Option Command ↑
Decrease Magnification	Option Command ↓
